LOGBOOK

1. In filling your day to day activities, you should report the tasks carried out that day e.g. inspection and repair of faulty equipments. You can also state the name of the machine in that case. You should try not to make it personal by always starting with "I".
2. For days when it seems you might not have work you should try to research on something at least learn something new, so that in you report you can just fill "research on.....".
3. Lastly start filling your logbook and get it signed as this will also increase your marks when supervisors come to your place of attachment.
